WORK EXPERIENCE

PACKAGING CORPORATION OF AMERICA

Packaging Design Intern | Jan 2017 - Current

- Worked closely with a sales rep to develop a packaging system that beat out the competition and led to the acquisition of a new client
- Created various different corrugated models and signs for PCA clients, resulting in improved client retention and satisfaction
- Increased the output of the design lab by having a quick turn-around time which helped the sales reps stay ahead of the competition
- Developed and prototyped projects from the initial customer request through to the production of the first order

MICHIGAN STATE UNIVERSITY

Undergraduate Research | Sep 2016 - Dec 2016

- Gathered and analyzed data to determine what materials were used in different forms of modified atmosphere packaging
- Findings were presented to the head of Food Packaging Department at Michigan State University, which were then used in her classroom discussions and lessons

WONDER JUMP

Team Leader | Jun 2013 - Jan 2017

- Worked with the owner to improve the operations and logistics of the company which resulted in smart investing in the company, increased profits, and efficient work schedules
- Developed a strong work ethic with a priority on customer satisfaction and onsite efficiency
